STEAMBOX gas convection oven 10x GN 2/1 touch digital Automatic cleaning boiler				
Model		SAP Code	000115	90
1	A symbiotic steam genera simultaneous use of direct inje maintenance of 100% humidity – preparation of different dis an environment precisely	ction and boiler, ,, or its regulation shes and cooking styles in	7	<b>A kit of two machines on top of each other</b> connection kit allowing two machines to be placed on top of each other connects the connections, inlets, wastes and ventilation of the lower combi oven
2	Digital display simple multi-line backlit displa cooking phases - help with cooking even for baking even in the absenc your own recipes; easy to	less skilled cooks, safe e of an operator; create	8	<ul> <li>allows the user to place two machines in smaller spaces to increase production; the chef can prepare two different dishes simultaneously</li> <li>Premix burner</li> <li>the only burner with a turbo pre -mixing gas with air on the market</li> <li>the structure of the burner to V which prevents</li> </ul>
3	Weather system patented device for measuring time and in steam mode, the o – precise information for the saturation in the cooking a	nly one on the market e operator about the steam	0	backfill and banging This design saves 30 % of gas compared to conventional burners – faster heat-up faster more comfortable operation Automatic washing
4	Steam tuner a control element that enables saturation of steam in the cook cooking process - possibility of cooking diffe very moist steam for typic saturated steam for e.g. Fr	ing chamber during the rent types of cuisine, from al Czech dishes to low-	9	<ul> <li>integrated chamber washing system</li> <li>possibility to use liquid and tablet detergents</li> <li>option to use vinegar as a rinse agent</li> <li>the system simultaneously descales the micro-boiler</li> <li>the chamber of the conveyer is washed without the presence of the operator, for example overnight; the system decalcifies the micro-boiler without the need for service intervention; the chamber is maintained in a constant 1% hygienic quality</li> </ul>
5	Pass-through door the door is also built into the b while full control is retained fro enables the distribution of the and the kitchen - the chef can dispense the machine, the customer ca maintenance of the food of	m the side of the cook delivery area food through the convecto n see the preparation and	10	Self -supporting shower drum winch integrated in the body of the kettle the shower is inaccessible when the door is closed – allows food in the food processor to be rinsed out - if necessary to speed up cooling
6	Adaptation for roasting of the chamber of the convection baked fat, the machine is equip collecting fat – grease does not drain into destroy the machine's was	<b>hickens</b> oven is designed to collect oped with a container for the sewer, does not	11	<ul> <li>Six-speed fan, reversible with automatic calculation of direction change</li> <li>in cooperation with the symbiotic system, it ensures perfect steam distribution without losing its richness its operation is controlled by the program or manually</li> <li>allows the preparation of a variety of dishes from the most delicate to high temperature baking at the highest speed</li> </ul>
