

Convection oven STEAMBOX gas 6x GN 1/1 touch digital Automatic cleaning Direct steam

Model SAP Code 00010358

- Steam type: Injection
- Number of GN / EN: 6
- GN / EN size in device: GN 1/1
- GN device depth: 65
- Control type: Digital
- Humidity control: MeteoSystem regulation based on direct measurement of humidity in the chamber (patented)
- Advanced moisture adjustment: Supersteam two steam saturation modes
- Delta T heat preparation: Yes
- Automatic preheating: Yes
- Multi level cooking: No
- Door constitution: Vented safety double glass, removable for easy cleaning

SAP Code	00010358	Power gas [kW]	12.000
Net Width [mm]	860	Type of gas	Natural Gas
Net Depth [mm]	795	Steam type	Injection
Net Height [mm]	835	Number of GN / EN	6
Net Weight [kg]	142.00	GN / EN size in device	GN 1/1
Power electric [kW]	0.400	GN device depth	65
Loading	230 V / 1N - 50 Hz	Control type	Digital

Convection oven STEAMBOX gas 6x GN 1/1 touch digital Automatic cleaning Direct steam

Model **SAP Code** 00010358

Direct injection

steam generation by spraying water on the heating elements directly in the chamber

- simple and efficient solution
- moist steam with water droplets
- Digital display simple multi-line backlit display of 99 programs with 9
 - cooking phases - help with cooking even for less skilled cooks, safe
 - baking even in the absence of an operator; create your own recipes; easy to use
- Weather system patented device for measuring steam saturation in real time and in steam mode, the only one on the market
 - precise information for the operator about the steam saturation in the cooking area
- Steam tuner a control element that enables setting the exact saturation of steam in the cooking chamber during the cooking process
 - possibility of cooking different types of cuisine, from very moist steam for typical Czech dishes to lowsaturated steam for e.g. French cuisine
- Pass-through door the door is also built into the back of the combi oven. while full control is retained from the side of the cook enables the distribution of the delivery area and the kitchen
 - the chef can dispense the food through the convecto machine, the customer can see the preparation and maintenance of the food during dispensing
- **Adaptation for roasting chickens** the chamber of the convection oven is designed to collect baked fat, the machine is equipped with a container for collecting fat
 - grease does not drain into the sewer, does not destroy the machine's waste system

A kit of two machines on top of each other

connection kit allowing two machines to be placed on top of each other

connects the connections, inlets, wastes and ventilation of the lower combi oven

- allows the user to place two machines in smaller spaces to increase production; the chef can prepare two different dishes simultaneously
- **Premix burner** the only burner with a turbo pre-mixing gas with air

on the market the structure of the burner to V which prevents

backfill and banging This design saves 30 % of gas compared to conventional burners

- faster heat-up faster more comfortable operation
- **Automatic washing** integrated chamber washing system possibility to use liquid and tablet detergents option to use vinegar as a rinse agent the system simultaneously descales the micro-boiler
 - the chamber of the conveyer is washed without the presence of the operator, for example overnight; the system decalcifies the micro-boiler without the need for service intervention; the chamber is maintained in a constant 1% hygienic quality

Self-supporting shower

drum winch integrated in the body of the kettle the shower is inaccessible when the door is closed

- allows food in the food processor to be rinsed out if necessary to speed up cooling
- Six-speed fan, reversible with automatic calculation of direction change

in cooperation with the symbiotic system, it ensures perfect steam distribution without losing its richness its operation is controlled by the program or manually

 allows the preparation of a variety of dishes from the most delicate to high temperature baking at the highest speed
