STEAMBOX electric convect machine 6x GN 1/1 Automatic cleaning Direct steam 400 V Model **SAP Code** 00008594 **Direct injection** A kit of two machines on top of each other steam generation by spraying water on the heating connection kit allowing two machines to be placed on elements directly in the chamber top of each other connects the connections, inlets, wastes and ventilation - simple and efficient solution of the lower combi oven - moist steam with water droplets - allows the user to place two machines in smaller spaces to increase production, the chef can prepare **Touch screen display** two different dishes simultaneously simple intuitive control with unique pictograms, all in Czech **Premix burner** the possibility of using preset programs or manual control the only burner with a turbo pre -mixing gas with air help with cooking even for less skilled cooks, safe on the market baking even in the absence of an operator; create the structure of the burner to V which prevents your own recipes; easy to use backfill and banging This design saves 30 % of gas compared to Weather system conventional burners patented device for measuring steam saturation in real - faster heat-up faster more comfortable operation time and in steam mode, the only one on the market - precise information for the operator about the steam **Automatic washing** saturation in the cooking area integrated chamber washing system possibility to use liquid and tablet detergents **Steam tuner** option to use vinegar as a rinse agent a control element that enables setting the exact the system simultaneously descales the micro-boiler saturation of steam in the cooking chamber during the - the chamber of the conveyer is washed without the cooking process presence of the operator, for example overnight; the - possibility of cooking different types of cuisine, from system decalcifies the micro-boiler without the need very moist steam for typical Czech dishes to lowfor service intervention; the chamber is maintained saturated steam for e.g. French cuisine in a constant 1% hygienic quality Pass-through door Self -supporting shower the door is also built into the back of the combi oven, drum winch integrated in the body of the kettle while full control is retained from the side of the cook the shower is inaccessible when the door is closed enables the distribution of the delivery area - allows food in the food processor to be rinsed out - if and the kitchen necessary to speed up cooling - the chef can dispense the food through the convecto machine, the customer can see the preparation and Six-speed fan, reversible with automatic maintenance of the food during dispensing calculation of direction change in cooperation with the symbiotic system, it ensures Adaptation for roasting chickens perfect steam distribution without losing its richness 6 the chamber of the convection oven is designed to collect its operation is controlled by the program or manually baked fat, the machine is equipped with a container for - allows the preparation of a variety of dishes from collecting fat the most delicate to high temperature baking at the - grease does not drain into the sewer, does not highest speed destroy the machine's waste system

STEAMBOX electric convect machine 6x GN 1/1 Automatic cleaning Direct steam 400 V		
Model	SAP Code	00008594
1. SAP Code: 00008594		14. Exterior color of the device: Stainless steel
2. Net Width [mm]: 860		15. Adjustable feet: Yes
3. Net Depth [mm]: 795		16. Humidity control: MeteoSystem - regulation based on direct measurement of humidity in the chamber (patented)
4. Net Height [mm]: 835		17. Stacking availability: Yes
5. Net Weight [kg]: 132.00		18. Control type: Touchscreen + buttons
6. Gross Width [mm]: 955		19. Additional information: possibility of reverse door opening - handle on the right side (must be specified when ordering)
7. Gross depth [mm]: 920		20. Steam type: Injection
8. Gross Height [mm]: 1020		21. Chimney for moisture extraction: Yes
9. Gross Weight [kg]: 142.00		22. Delayed start: Yes
10. Device type: Electric unit		23. Display size: 9"
11. Power electric [kW]: 10.400		24. Delta T heat preparation: Yes
12. Loading: 400 V / 3N - 50 Hz		25. Automatic preheating: Yes
L3. Material: AISI 304		26. Automatic cooling: Yes

Technical parameters

Model SAP Code	00008594	
Model SAP Code	00000354	
27. Cold smoke-dry function: Yes	40. Heating element material: Incoloy	
28. Unified finishing of meals EasyService: Yes	41. Probe: Yes	
29. Night cooking: Yes	42. Shower: Hand winder	
30. Washing system: Closed - efficient use of water and washing chemicals by repeated pumping	43. Distance between the layers [mm]: 70	
31. Detergent type: Liquid washing detergent + liquid rinse aid/vinegar or washing tablets	44. Smoke-dry function: Yes	
32. Multi level cooking: Drawer program - control of heat treatment for each dish separately	45. Interior lighting: Yes	
33. Advanced moisture adjustment: Supersteam - two steam saturation modes	46. Low temperature heat treatment: Yes	
34. Slow cooking: from 50 °C	47. Number of fans:	
35. Fan stop: Immediate when the door is opened	48. Number of fan speeds:	
36. Lighting type: LED lighting in the doors, on both sides	49. Number of programs: 1000	
37. Cavity material and shape: AISI 304, with rounded corners for easy cleaning	50. USB port: Yes, for uploading recipes and updating firmware	
38. Reversible fan: Yes	51. Door constitution: Vented safety double glass, removable for easy cleaning	
39. Sustaince box: Yes	52. Number of preset programs: 100	

Technical parameters

Model SAP Code	00008594	
53. Number of recipe steps: 9	59. GN / EN size in device: GN 1/1	
54. Minimum device temperature [°C]:	60. GN device depth: 65	
55. Maximum device temperature [°C]: 300	61. Food regeneration: Yes	
56. Device heating type: Combination of steam and hot air	62. Cross-section of conductors CU [mm²]: 2,5	
57. HACCP: Yes	63. Diameter nominal: DN 50	
58. Number of GN / EN: 6	64. Water supply connection: 3/4"
