Combi convection steam oven STEAMBOX gas 20x GN 2/1 touch screen boiler			
Model	SAP Code	00008613	
		 Steam type: Symbiotic - boiler an combination (patent) Number of GN / EN: 20 GN / EN size in device: GN 2/1 GN device depth: 65 Control type: Digital Humidity control: MeteoSystem - measurement of humidity in the of advanced moisture adjustment: S saturation modes Delta T heat preparation: Yes Automatic preheating: Yes Multi level cooking: No Door constitution: Vented safety of easy cleaning 	regulation based on direct chamber (patented) Supersteam - two steam
SAP Code	00008613	Power gas [kW]	56.000
Net Width [mm]	1200	Type of gas	Natural Gas

SAP Code Deficient steam generation system bus use of direct injection and boiler, nee of 100% humidity, or its regulation ration of different dishes and cooking styles in vironment precisely set for the food or dish isplay Iti-line backlit display of 99 programs with 9 hases with cooking even for less skilled cooks, safe g even in the absence of an operator; create own recipes; easy to use system device for measuring steam saturation in real n steam mode, the only one on the market se information for the operator about the steam ation in the cooking area	O0008613 Akit of two machines on top of each other Connection kit allowing two machines to be placed on top of each other Connects the connections, inlets, wastes and ventilation of the lower combi oven allows the user to place two machines in smaller spaces to increase production; the chef can prepare two different dishes simultaneously B Premix burner He only burner with a turbo pre -mixing gas with air on the market the structure of the burner to V which prevents backfill and banging This design saves 30 % of gas compared to conventional burners - faster heat-up faster more comfortable operation
bus use of direct injection and boiler, face of 100% humidity, or its regulation ration of different dishes and cooking styles in vironment precisely set for the food or dish isplay Iti-line backlit display of 99 programs with 9 hases with cooking even for less skilled cooks, safe g even in the absence of an operator; create own recipes; easy to use system device for measuring steam saturation in real in steam mode, the only one on the market se information for the operator about the steam	 connection kit allowing two machines to be placed on top of each other connects the connections, inlets, wastes and ventilation of the lower combi oven allows the user to place two machines in smaller spaces to increase production; the chef can prepare two different dishes simultaneously Premix burner the only burner with a turbo pre -mixing gas with air on the market the structure of the burner to V which prevents backfill and banging This design saves 30 % of gas compared to conventional burners
ace of 100% humidity, or its regulation ration of different dishes and cooking styles in vironment precisely set for the food or dish isplay Iti-line backlit display of 99 programs with 9 hases with cooking even for less skilled cooks, safe g even in the absence of an operator; create own recipes; easy to use system device for measuring steam saturation in real in steam mode, the only one on the market se information for the operator about the steam	 top of each other connects the connections, inlets, wastes and ventilation of the lower combi oven allows the user to place two machines in smaller spaces to increase production; the chef can prepare two different dishes simultaneously Premix burner the only burner with a turbo pre -mixing gas with air on the market the structure of the burner to V which prevents backfill and banging This design saves 30 % of gas compared to conventional burners
Iti-line backlit display of 99 programs with 9 hases with cooking even for less skilled cooks, safe g even in the absence of an operator; create own recipes; easy to use system device for measuring steam saturation in real in steam mode, the only one on the market se information for the operator about the steam	8 Premix burner the only burner with a turbo pre -mixing gas with air on the market the structure of the burner to V which prevents backfill and banging This design saves 30 % of gas compared to conventional burners
g even in the absence of an operator; create own recipes; easy to use system device for measuring steam saturation in real n steam mode, the only one on the market se information for the operator about the steam	8 the only burner with a turbo pre -mixing gas with air on the market the structure of the burner to V which prevents backfill and banging This design saves 30 % of gas compared to conventional burners
levice for measuring steam saturation in real n steam mode, the only one on the market se information for the operator about the steam	This design saves 30 % of gas compared to conventional burners
	Automatic washing integrated chamber washing system
Iner Ilement that enables setting the exact of steam in the cooking chamber during the rocess bility of cooking different types of cuisine, from noist steam for typical Czech dishes to low-	 possibility to use liquid and tablet detergents option to use vinegar as a rinse agent the system simultaneously descales the micro-boiler the chamber of the conveyer is washed without the presence of the operator, for example overnight; the system decalcifies the micro-boiler without the need
ated steam for e.g. French cuisine ough door	for service intervention; the chamber is maintained in a constant 1% hygienic quality
control is retained from the side of the cook e distribution of the delivery area cchen nef can dispense the food through the convecto	 Self -supporting shower drum winch integrated in the body of the kettle the shower is inaccessible when the door is closed allows food in the food processor to be rinsed out - if necessary to speed up cooling
enance of the food during dispensing on for roasting chickens	11 Six-speed fan, reversible with automatic calculation of direction change in cooperation with the symbiotic system, it ensures
the machine is equipped with a container for fat e does not drain into the sewer, does not by the machine's waste system	 perfect steam distribution without losing its richness its operation is controlled by the program or manually allows the preparation of a variety of dishes from the most delicate to high temperature baking at the highest speed
s a con cch in cer on cer th fat	Iso built into the back of the combi oven, htrol is retained from the side of the cook distribution of the delivery area hen f can dispense the food through the convecto e, the customer can see the preparation and hance of the food during dispensing n for roasting chickens r of the convection oven is designed to collect e machine is equipped with a container for t does not drain into the sewer, does not

Technical parameters

Combi convection steam oven S	TEAMBOX gas 20x GN 2/1	1 touch screen boiler
Model	SAP Code	00008613
1. SAP Code:		14. Type of gas: Natural Gas
		15. Material:
1200		AISI 304
3. Net Depth [mm]: 910		16. Exterior color of the device: Stainless steel
		17. Adjustable feet:
1850		Yes
5. Net Weight [kg]: 400.00		18. Humidity control: MeteoSystem - regulation based on direct measurement of humidity in the chamber (patented)
6. Gross Width [mm]: 1320		19. Stacking availability: No
7. Gross depth [mm]: 1130		20. Control type: Digital
8. Gross Height [mm]:		21. Additional information:
2100		possibility of reverse door opening - handle on the right side (must be specified when ordering)
9. Gross Weight [kg]:		22. Steam type:
410.00		Symbiotic - boiler and injection combination (patent)
10. Device type: 2 Combined unit		23. Chimney for moisture extraction: Yes
11. Power electric [kW]: 4.100		24. Delta T heat preparation: Yes
12. Loading: 230 V / 1N - 50 Hz		25. Automatic preheating: Yes
13. Power gas [kW]: 56.000		26. Automatic cooling: Yes

Technical parameters

Model	SAP Code	00008613
27. Unified finishing of r No	neals EasyService:	41. Interior lighting: Yes
8. Night cooking: No		42. Low temperature heat treatment: Yes
9. Multi level cooking: No		43. Number of fans: 2
0. Advanced moisture adjustment: Supersteam - two steam saturation modes		44. Number of fan speeds: 6
1. Slow cooking: from 30 °C - the possibility of rising		45. Number of programs: 99
32. Fan stop: Immediate when the d	oor is opened	46. USB port: Yes, for uploading recipes and updating firmware
3. Lighting type: LED lighting in the doors, on both sides		47. Door constitution: Vented safety double glass, removable for easy cleaning
 Cavity material and shape: AISI 304, with rounded corners for easy cleaning 		48. Number of preset programs:
5. Reversible fan: Yes		49. Number of recipe steps: 9
36. Sustaince box: Yes		50. Minimum device temperature [°C]: 30
37. Probe: Yes		51. Maximum device temperature [°C]: 300
3. Shower: Hand winder		52. Device heating type: Combination of steam and hot air
39. Distance between th	e layers [mm]:	53. HACCP: Yes
0. Smoke-dry function: No		54. Number of GN / EN: 20
