1

Granuled ice

ice pulp is wet, dissolves faster
– no ice crusher is needed - time saving

2

The most effective evaporator on the market

lower energy consumption and faster ice pulp production
– saving energy costs, time saving

3

Vapor without sealing joints and seals

a solid uniform design of the evaporator
– easy to clean

4

Tropical version of the machine (class t)

adaptation to extreme climatic conditions.
– use in extreme climatic conditions

5

A backlit rocker switch

simple operation even in reduced visibility or in the dark
– saving time and the possibility of turning on and off the device even in the dark or in reduced visibility

6

Refrigerant - gas R293

refrigerant with very low benefits to global warming and low energy consumption.
– ecological use and economic savings

7

Powerful speed reduction at the top

convenient service, higher speed of production
– time saving, human work, economic savings

8

Stif: a construction supported by 4 -steel columns

strength
– the possibility of higher loads and a difficult deformation

9

SFVS front ventilation

allows the units of the unit to the interior
– variability of the location of the device
